PROJECTS

Vermio Play — Cloud Gaming Platform [GitHub ↗](#) [Live ↗](#) [Docs ↗](#) [Figma ↗](#) [Video ↗](#)

React.js • Node.js • Express.js • MongoDB • Tailwind CSS • REST APIs

- Developed a cloud gaming platform enabling users to stream games without requiring high-end hardware or large local storage.
- Built responsive React.js interfaces with dark/light themes, cross-device compatibility, and reusable UI components.
- Implemented backend APIs for authentication, game library management, and gameplay data handling using Node.js and MongoDB.
- Designed scalable subscription workflows, adaptive streaming concepts, and complete UI/UX prototypes in Figma.

CG Attendance Tracker [GitHub ↗](#) [Docs ↗](#) [Video ↗](#)

React.js • Node.js • Express.js • MongoDB • Tailwind CSS • REST APIs

- Developed backend APIs for attendance tracking, student management, and bulk attendance updates using Express.js and MongoDB.
- Designed MongoDB schemas with validation, structured records, and optimized data persistence workflows.
- Implemented CRUD operations, error handling, and attendance hour calculation logic for accurate tracking.
- Integrated backend services with dashboard modules for seamless attendance and student data synchronization.

HACKATHONS

Amalthea X Odoo — IIT Gandhinagar [GitHub ↗](#) [Certificate ↗](#)

HRMS Platform • Backend Development • MongoDB

- Developed backend modules and attendance workflows for an HRMS platform during a national-level hackathon.
- Collaborated in rapid prototyping, API integration, and MongoDB-based data management under limited time constraints.

HackXios — IIIT Bhopal (AI Study Buddy) [GitHub ↗](#) [Certificate ↗](#)

Next.js • MongoDB • OpenAI API • Tailwind CSS • Node.js

- Built an AI-powered study platform combining Pomodoro focus tracking with intelligent learning assistance features.
- Developed AI-based summarization, streak systems, focus detection, and responsive dashboard workflows using Next.js and MongoDB.

TechPreneur — IIT Jammu (TaskFlow) [GitHub ↗](#) [Certificate ↗](#)

Next.js • MySQL • JWT • Tailwind CSS • Full Stack Development

- Developed a task management platform with workspace collaboration, analytics dashboards, and real-time team workflows.
- Implemented JWT authentication, MySQL integration, and responsive UI with Framer Motion-based interactions.

LNMHacks 8.0 — LNMIIT Jaipur [GitHub ↗](#)

Web3 • Solidity • Next.js • Tailwind CSS • Ethers.js

- Built a blockchain-based prediction market platform focused on viral internet culture and social media trends.
- Implemented smart contract workflows, decentralized betting logic, and responsive Web3 interfaces on Monad Testnet.
